Depth and breadth, but most importantly: Responsible AI

With **over thirty years of experience** in AI technology and a broad shared expertise in the area of ethical, legal and social aspects of AI, our coalition develops and implements *responsible AI*.

Together we are building:

- **A strong knowledge base**
- **A magnet for talent**
- **State-of-the-art infrastructure**
- **Space for entrepreneurship and a competitive business environment**
- **A vibrant ecosystem and close collaboration in the quadruple helix**

Moving forward..

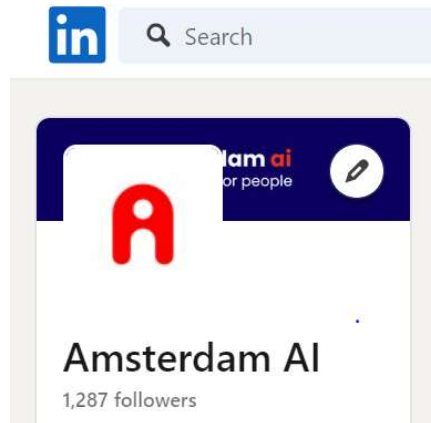

"A group of nine founders signing an agreement"

About amsterdam ai

Amsterdam AI was founded in late 2019 under the name AI – Technology for People as an initiative of Amsterdam's universities, research centres and medical centres, the City of Amsterdam and the Amsterdam Economic Board.

Amsterdam AI aspires to generate... Thanks to the thriving Amsterdam research with practical applications and legal aspects of AI. Amsterdam magnet for AI talent.

Website:
www.amsterdamai.com

**Innovation Center for
Artificial Intelligence**

The ICAI Labs are funded by their respective partners (knowledge institutes, industrial partners, governmental partners, and/or other not-for-profit organizations).

Amsterdam-based ICAI labs:

- [AI for Oncology lab](#)
- [AI4Forensics Lab](#)
- [AIM Lab](#)
- [AIRLab Amsterdam](#)
- [Atlas Lab](#)
- [CARA Lab](#) (with Nijmegen)
- [Civic AI Lab](#)
- [Cultural AI Lab](#)
- [Delta Lab](#)
- [Discovery Lab](#)
- [Explainable AI for Health Lab](#) (with Leiden)
- [Mercury Machine Learning Lab](#) (with Delft)
- [Police Lab AI](#) (with Delft and Utrecht)
- [POP-AART Lab](#)
- [QUVA Lab](#)
- [REM Lab](#) (with Den Bosch)
- [TAIM Lab](#) (with Maastricht)

ELSA Labs ('Ethical, Legal and Societal Aspects') are places where research into technological developments is carried out that incorporates ethical, legal, societal and economic developments..”

- The AI, Media & Democracy Lab already has 'ELSA status'
- The AI, Health and Equity Lab is pending!

**AI,
media and
democracy**

Future outlook: Strengthening the network

Establishing research programs around major themes such as generative AI, sustainability, and AI infrastructure. **Creating more Amsterdam AI labs** with a combination of both AI technology and ethical/legal/social aspects.

Launching an Amsterdam AI **traineeship program** where students rotate across multiple companies and institutions. Creating **space for entrepreneurship** for both students and the scientific staff. Further strengthening the ecosystem through close collaboration in the quadruple helix.
